QUOTES

“ALCS do an amazing job supporting people with cancer and their families. They are an essential part of my coping with my illness.”

“Cross keys presents a very calm relaxed atmosphere. The staff are very helpful, kind, and understanding. A great sanctuary, offering a wide variety of services, courses etc.”

Testimonials

A warm and welcoming venue for people to get together and discuss all aspects of cancer. Good facilities in other areas: library and quiet room, little shop, homemade cakes served by cheerful volunteers. All in all, an impressive place to be.

ALCS has transformed my husband's life literally! When we first met Mary, we were at our lowest point, totally unsupported and I as my husband's carer did not know how to cope, today with the constant kindness, professionalism and access to different groups, alternative therapies etc. we are in a different place! My husband's cancer is untreatable, and he has ups and downs, but I know without ALCS our life would be even more difficult THANK YOU!
