

# ROPEWORK WORKSHOP – WITH BBA LYME REGIS

18<sup>th</sup> September 2024 – Boat Building Academy – Lyme Regis

## EVENT OVERVIEW

Boat Building Academy Ropework Course.

## QUOTES

“As expected, this workshop was a delight, opening the mind to an activity not done before. It raised my spirits and was lovely to meet others.”

“It was the first time in months that I had made the effort to mix with people and I thank you so much

For such an enjoyable day and small class numbers.”

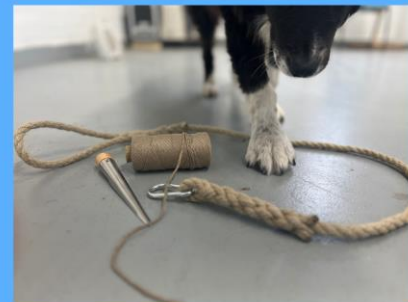

## TESTIMONIALS

It was certainly a challenge for me to create a dog lead from rope. It did my morale good to learn that at 85 with incurable cancer I could still enjoy new experiences. I left very tired but very pleased with myself, which is good for morale. I would never have had this mood-lifting experience if it were not for ALCS. They are so worth supporting for the enormous amount of emotional support they give patients and carers.
