TESTIMONIALS

In early 2024 I was diagnosed with Advanced Prostate Cancer. During my chemotherapy I began to wonder if I would be strong enough to attempt my third "Hills are Alive" walk as it is quite a strenuous hike across the Dorset coastal hills and not to be undertaken lightly. I set 14th September as a personal goal, I started training towards the end of chemotherapy and I asked some good friends to accompany and support me.

The sense of exhilaration mixed with exhaustion was very special, knowing that we have raised some money to benefit others facing a difficult time was a bonus. Thanks to ALCS for keeping me going.
